NDE & STE: Support – Healing – Education
2019 - 2021

AKAMAI UNIVERSITY

Institute for CAM Studies

A Certificate Program in Integrative Health:

NDE & STE: Support – Healing – Education

Offered through the Institute for CAM Studies

Affiliated with Akamai University

Degree Programs & the Division of Continuing Education

Background: Near Death and Spiritual Transformative Experiencers often have trouble integrating their experiences as documented by the International Association for Near Death (IANDS), the J.B. Rhine Center and the Association of Research and Enlightenment. Through their on-going investigations and research worldwide of thousands of experiencers of all ages, backgrounds and situations, including health professionals, and over many decades, the science is compelling.

This certificate program in integrative health is designed to train facilitators, healers and educators for this specialization. It includes working with experiencers knowledge gained from their NDE and STE as partners supporting and healing each other revolutionizing our understanding about consciousness, multi-dimensional health, healing and education.

Goal: This global training program prepares facilitators, healers and educators in Integrative Health with a specialty in NDE and STE using an integrative approach to serve them, their families, friends, the general public and health professionals. We are ONE and work as a team to grow, heal and learn.

Program Objectives:

Participants learning to become an Integrative Health Certified Facilitator, Healer or Educator in ND & ST Experiences.

Each learner will be able to:

1. Describe the literature including research.
2. Explore the elements of Integral Health applied to ND and ST Experiencers.
3. Describe the ethical dimension for facilitators, healers and educators
4. Investigate Integral Health as a treatment of choice vs a symptom approach to service
5. Experience and practice Integral Health Interventions.
6. Support and comfort for experiencers, their families and friends.
7. Document outcomes.
8. Create marketing materials for your service.
9. Promote understanding and acceptance of experiencers.
10. Participate in ongoing training to maintain expertise
11. Practice what you learn and experience.
12. Explore innovations in the field.

Eligible Participants for the Training: The training is open to anyone desiring to become a facilitator, healer and or educator in this field. The training includes being willing to undertake the in-depth study; commit to high standards of practice; operating under a Code of Ethics and Standards of Practice; receive on-going mentorship and supervision as needed both in the training; maintain competency and update as needed.

This is an on-going growing field. Health care professionals are encouraged to apply as well as energy practitioners and experiencers of all persuasions. It is required for those who desire to be coaches, practitioners, facilitators, mentors and supervisors. A portfolio assessment is acceptable to waive training requirement and for accepting transfer in credit from expertise gained elsewhere.

Guiding Principles:

- ✓ Let Go and Let God (Replace the word that fits your beliefs regarding a Higher Power)
- ✓ Spiritual Healing Heals
- ✓ Be Present and Quiet, to Hear Inner Wisdom

**Protocol for Near Death and Spiritual Transformative Experience
Facilitators, Healing Partners and Educators
Become a Board-Certified Health Coach**

The Healing Journey for experiencers is not a linear path but a dynamic lived experience unique to the individuals involved. This is also true for serving this population as facilitators, healing partners and educators. Therefore, the interventions for body, emotion, mind and spirit and education need to be individualized to those involved using a template that is outlined below to guide the team of experiencers, support facilitators, healing partners and educators.

Training is offered by the Internationally Accredited Akamai University, Institute for CAM Studies through a team approach where experiencers, facilitators, healing partners and educators all study together. The training protocols are done in phases or steps and includes: Telling the Story, Living with the After Effects and Evaluation of the Journey. Individuals can take as much time as needed for each phase as the process occurs in steps as each phase is completed.

Treatment Affirmations:

- I call on Source, God, Creator, a Higher Power to fill me with Divine Light and Love.
- I choose to be present in life with my family, friends, work, recreation, animals and nature.
- I am a Divine Child of Source and a Being of Light for the world.
